gift-quality product with little or no experience. I highly recommend it. - Cathy (Maine, US) This is just the type of book I like. I read the Part I already, and so I was excited for the Part II of the series. It has a little bit of everything and the projects lend themselves so wonderfully to the home. I like to crochet gifts for friends and family and this certainly has quite a collection for me to do that. So many projects are so do-able. The authors instructions are clear and concise and use of color is beautiful. I cant even choose a favorite. Its all good. I recommend this book for any level crocheter. You are bound to find several patterns you love. - Erin (Texas, US)
