

## Deadly Verdict (Severn House Large Print)

Imagine the United States legal system built upon a pool of professional jurors trained to judge evidence objectively ... - When a professional jury foreman goes missing and Holland Byron is put on the case with lead agent Wyatt Ert, Holland suspects shes the victim of an in-joke. By turns brilliant and surprisingly innocent, Holland soon wonders who and what Ert is ... Then other jurors turn up dead. Is the entire program under attack or is it just vengeful guilty defendants?
