

Shoji Hamada: A Potters Way and Work

Shoji Hamada, along with Bernard Leach, was one of the key figures in the development of studio pottery in the 20th century. His influence both in England and the US as well as in his native Japan cannot be underestimated. The Japanese government designated him a Living National Treasure in 1955 and awarded him the Order of Culture in 1968. This book has been totally redesigned with colour photographs and a new chapter.
