

# The Mountains of Ireland: A Guide to Walking the Summits

A comprehensive guide, now the classic guide, to Irelands 200 summits of 2000ft or more and to the 12 peaks exceeding 3000ft. The mountains are described clockwise from Wicklow to the Mourne, and offer a choice of 70 walking routes. The guide divides the peaks into 5 groups, and at the start of each is described Paddys Way - the way the author tackled them - so that anyone who wants to emulate him has full directions. The guide includes summitting Carrauntoohil, Irelands highest mountain as part of the Coomloughra horseshoe, the twelve Bens of Connemara, the Maum Turks, the Blue Stack mountains and the mountains of Donegal.
