

A Home for All Seasons

Leading stylist Kristin Perers shows how to breathe new life into your home by reflecting the mood, light, and temperature changes that the seasons bring. Her easy, inexpensive ideas show what a great source of creativity these changes can be. The first section, Inspirations, explores colours, textures, scents, and objects that define the time of year. Creations is packed with simple ideas and sewing projects, from a summer curtain to an autumnal throw. Living Spaces shows, room by room, how these ideas can transform a house from a static place into a living, breathing home. With hundreds of beautiful photographs by James Merrell. *Includes 10 step-by-step projects. *Change a cozy winter den into an airy spring space as easily as one season flows into the next.
