

A Microguide to Bordeaux by Bottlenotes

A Microguide to Bordeaux by Bottlenotes expands upon Bottlenotes popular daily email newsletter about all things wine, The Daily Sip, offering a sippable snapshot of this iconic French wine region. This Microguide includes an overview of Bordeaux basics. It describes the regions classic grape varieties; spotlights historic cities, towns and wineries; and recommends itineraries for two to five day trips. Perhaps most practically, the Microguide includes tips for enjoying Bordeaux wines at home, by providing guidance on which wines to buy and which foods to pair with them. After reading the guide, you will understand that this storied region currently offers some of the best values in the wine world. Contrary to popular belief, Bordeaux wines are not always expensive- and a trip to the region by no means out of reach. A Microguide to Bordeaux by Bottlenotes is a useful guide that will immediately inform your tasting, buying, and travel experiences
