

## A Wanderers Words

A true story about a young English boy who finds himself alone at the tender age of sixteen. He takes us through his hilarious childhood, mischief being his middle name as he creates havoc. Then he flies the nest and armed with a passport, backpack and a lot of courage, sets off into mainland Europe, searching for adventure. Follow his experiences as our intrepid wanderer hitchhikes his way around southern Europe. Always searching for adventure, he finds himself alone in the desert, wrestles with bears and narrowly avoids being killed by Sudanese rebels. Finally he discovers Thailand and then begins the love affair that has lasted more than three decades. He immersed himself in the culture, living in the jungle for one year. He gives us a fascinating insight into Thai society from a western perspective. He finds Buddhism and his life takes a new direction. There are surprises, its not always a smooth ride, yet he manages to retain his eternal optimism and lust for adventure.
