

Predator: Life and Death

Colonial Marines land on the planet Tartarus to investigate illegal prospecting by a rival corporation on a Weyland-Yutani claim. But what they find are the shell-shocked survivors of a battle with extraterrestrial hunters over the possession of a mysterious horseshoe-shaped spaceship of unknown origin. The Weyland-Yutani rep demands the marines take the ship, and the marine captain is determined to protect her crew. But neither objective is likely when a band of Predators attacks! Predator: Life and Death is chapter one in a new story cycle involving Predators, Aliens, and the mysterious Engineers from Prometheus!
