

Amber, Guinevere, and Kate Photographed by Craig McDean: 1993-2005

With energy and glamour, iconic photographer Craig McDean captures the celebrated evolution of fashion's biggest muses: Kate Moss, Guinevere van Seenus, and Amber Valletta. With their waiflike frames and unique features that contrasted with the supermodels of the 80s, Amber, Guinevere, and Kate became the anti-supermodels that, alongside grunge, signified a global shift in culture. And Craig McDean, an artist with a talented eye for the striking and unusual, photographed them from their beginnings. McDean, whose works are praised for their conceptual and sophisticated edge, is well respected in both the photography and fashion worlds. Shot on film from 1992 through 2002, this roughly chronological volume of 150 color and black-and-white images includes never-before-published photographs, outtakes from famous shoots, and contact sheets. Texts by Mathias Augustyniak of M/M (Paris) and author Glenn O'Brien add depth and perspective to the works. The photographs within this volume capture the essence of an era that changed fashion forever and will be treasured by fashion, style, and photography lovers from all generations.
