

Apple Pro Video Training: Aperture 3 (Apple Pro Training)

With more than 200 new features, Aperture 3 gives photographers what they want in a workflow tool: the ability to make intelligent selects with lightning speed, adjust images quickly and powerfully, deliver photos online or in print with a single click, and manage and search huge archives with ease. This Apple-certified guide to Aperture 3 includes over 3 hours of high quality video tutorials and a companion printed quick-reference guide that will get you up and running quickly, taking you step by step through Apertures powerful editing, retouching, proofing, publishing and archiving features. With coverage of Apertures new features, youll learn how to index your photos using face recognition and GPS location data; master powerful non-destructive image-adjustment tools; understand and employ metadata; demystify filters and color corrections, and much more. This videos real-world exercises feature professional photography from a variety of genres, including landscapes, portraits, wedding, and wildlife photography. The DVD with this package is an HD-DVD and is playable on a computer with Mac OS X v10.5.8 or v10.6.2 or later.
