

## Austria & Switzerland

The contents of this book show how the countries are divided up into tourist regions. The book is in two main sections: general information and gazetteer. The latter is arranged in the tourist regions with an introduction and a regional map. There are also plans of main cities. All main entries listed in the gazetteer are shown on the regional maps. Places to visit and leisure facilities available in each region and city are indicated by symbols. Main roads, railways and airports are shown on the maps.
