

Gemstone

New York Times bestselling author Barbara Delinsky shares her special magic in this poignant tale, first published in 1983, of past mistakes and second chances. It's been eight years since Sara McCray has seen her ex-husband, Jeff Parker, after she fled their San Francisco mansion and stifling life controlled by his domineering mother. But the naive young bride has returned a confident woman with her own business. Jeff, too, has changed. Since his mother's death he has become his own man, masterfully in control of the family business and estate. When they meet, the strong attraction that brought them together long ago is reawakened. But when Jeff asks Sara to stay, his offer has little to do with romance. Now Sara must decide: Does she dare be just a business partner with a man she's never stopped loving? Or does she turn her back on what may be her one chance for happiness?
