The values explored in detail by Dr. Skousen range from the Founders prerequisite that the Constitution was designed for a moral people, to a government empowered by the people with checks and balances, along with an understanding of the critical nature of fiscal responsibility and family values. This book sums up the secrets to what James Madison called a miracle. Revised, 30 Year Anniversary Edition. During the last 26 years of Dr. Skousens life he continued his extensive study of the constitution and founding values.
