

Childrens Book: Bedtime Adventure (Bedtime stories kids book for ages 2-6) (Bedtime stories childrens ebook collection)

This is a very delightful read, bringing to light in a fun way, a situation that is played over and over again in all families. The illustrations definitely bring alive what is happening, colorful and bold. The characters are just different looking enough to draw your attention to them. I believe every child, and parent, will be able to identify with this story and will giggle through it. A great sharing tale and one that will show parents and children, in this situation they are not alone. Recommended.??Shirley Johnson/Senior ReviewerMidWest Book Review?* * * Hello children, hello family. When I was a little boy, I always had trouble falling asleep. As it seemed, this gift passed on to my kids, so I had to invent special ways to make them sleep in time...This book, written with the help and guidance of child development experts, and brilliantly illustrated by SiGiDi, has helped thousands of families embrace a new order in their house, making both the parents and their little kids understand that food is meant for eating not for playing with. And this is their story....It is suitable as a read aloud book for preschoolers or a self-read kids book for older children. I hope you'll enjoy it!P.S,I added a special gift inside: an audio book version. Children seem to like it a lot! * * * And now for the full review:I believe all parents have endured drama when it comes to bedtime with our children. How many times have you walked them back to their beds and tucked them in, only to have them reappear??In this delightful tale by, Professor Tiptoe, we share this experience with Tiftaf, a little boy who is just not tired. As with children, his imagination takes root as he experiences several sleep disturbing happenings, from his blanket taking him up in the sky, to creatures creeping out from his shoes, and an unfortunate trip to the ocean where his clothes and bed become soiled. Oh my!?!This is a very delightful read, bringing

to light in a fun way, a situation that is played over and over again in all families. The illustrations definitely bring alive what is happening, colorful and bold. The characters are just different looking enough to draw your attention to them. I believe every child, and parent, will be able to identify with this story and will giggle through it.
