

# Connected Cloth: Creating Collaborative Textile Projects

It's a growing trend: textile artists eager to stitch together a community as well as a project. Cas Holmes and Anne Kelly, who formed their own productive partnership, explain the art of creative collaboration whether in small groups or large, with a neighbor or someone far away. They provide advice on finding colleagues, choosing venues, and setting ground rules, plus a wealth of ways to work together, swap pieces, develop variations on a theme, and even make joint creations via mail or the Internet. This thought-provoking, inspirational book will help you connect with other textile artists and take your own work beyond the personal.
