

Decorating in Detail

The celebrated designer and author of *The Language of Interior Design* takes readers deeply into her process of selecting the details for elegant, classic homes with inviting living rooms, bedrooms, dining rooms, kitchens, and other spaces. In her first book, Alexa Hampton shared the basics of interior design--Contrast, Proportion, Color, and Balance--to rave reviews from readers and the media. In *Decorating in Detail*, Alexa shares the development process for eight elegant homes in locations from New York City to New Orleans. Walking readers through each room, she describes how she and the homeowners chose all of the elements, from textures to fabrics to furniture. Sidebars on the best placement for lamps, outlets, and more (inspired by her popular *Wall Street Journal* Where-to column) and Sharpie drawings that show how she visualized the rooms transformations help the reader build an unprecedented understanding of interior home design as a whole.
