

Disconnected: Parenting Teens in a MySpace World

Parents worry they don't have the understanding or training to be able to care for their kids in a world that is increasingly superficial, politicized, and performance driven. *Disconnected* makes the concepts and strategies described in the bestselling *Hurt: Inside the World of Today's Teenagers* accessible to parents. After the overwhelming response to *Hurt*, authors Chap and Dee Clark here equip parents with an up to date, realistic parenting book that doesn't ignore the harsh realities of adolescent life. It builds a foundation for parents by describing exactly how things have changed, takes them through the various developmental stages their children go through, and gives them workable paradigms for parenting.
