

Dinosaur CD-ROM and Book (Dover Electronic Clip Art)

More than 230 illustrations nearly two-thirds of them in color provide graphic artists, students and prehistory enthusiasts with realistic images of primeval creatures, from the gigantic Apatosaurus to equally striking but less familiar dinosaurs. Captions identify the long-necked Brachiosaurus, the bony-plated Stegosaurus, the rhinoceros-like Centrosaurus, and scores of other amazing creatures. All have been magnificently rendered by award-winning nature artist Jan Sovak, who has set the dramatically poised animals against bold backdrops of the prehistoric environment.
