

Provence (France) 1:250 000 Travel Map, waterproof, GPS-compatible REISE This map is waterproof and tear-resistant, durable enough to survive time spent in the rucksack, pocket or on a restaurant table. It is double-sided to provide the best balance between a good scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in) with topographic and tourist information. Coverage along the Mediterranean coast spans from Montpellier in the west to the Italian border and slightly beyond in the east. Inland, the map reaches to Valence and Grenoble. Topography is shown by altitude colouring, spot heights and plenty of names of mountain and hill ranges, with national parks and other protected areas clearly marked. Road network includes selected local tracks, indicates locations of petrol stations along motorways, and gives driving distances on main routes. Numerous scenic routes are highlighted. Railway lines and ferry connections are included. The map indicates picturesque towns and villages and symbols mark various places of interest including campsites, churches and castles, archaeological sites, beaches, etc. The map has both a UTM grid and latitude and longitude grid at intervals of 10, plus an index of localities. Multilingual legend includes English. High quality German cartography.
