

## First and Forgotten

From the foreword: These artists emerged at a time when Christian music was poised for a change. The convergence of musicians who had grown up in the church but were listening to rock n roll. Pastors who had the vision to see that this music could be an effective means of bringing kids into the church. And, a few passionate individuals who wanted to find a way to share with the world the music that sparked their hearts, their faith, and their very lives. The artistic relevance, the importance of it all, the lasting influence it may or may not have had on a fledgling industry can be endlessly debated. But the truth is something special did happen then, and it helped to change everything about Christian music. Most importantly though, it had a lasting effect on thousands of lives, mine included.
