

Tuscan Living (Mini Lifestyle Library series)

The design of the Tuscan house has remained virtually unchanged since the Middle Ages, when landowners built country retreats drawing on the natural resources of the region. Indeed, it is these materials that give the Tuscan house its unique character: stone and marble; hard woods, like chestnut, oak, and elm; terracotta and brick; and water, used in ponds, fountains, and pools. These elements are captured here in exquisite detail: thick stone interior walls; terracotta-tiled roofs and floors; sienna-hued stucco finishes and luminous frescoes; exposed wood beams and scrubbed oak dining tables; and sunny courtyard gardens with the all-important water feature, whether an ancient well or an exquisite pool. In this glorious collection of color images, Simon McBride artfully evokes the magic and pleasures of Tuscan living. Simon McBride has been photographing interiors and gardens for over two decades, working regularly for House & Garden and Architectural Digest.
