

THE PARADOXES OF MR POND (Annotated and With Active Table of Contents)

The Paradoxes of Mr. Pond is the final collection of detective stories by G. K. Chesterton, the author of the celebrated Father Brown. These short novels revolve around a civil servant named Mr. Pond. He is described as a very ordinary man who has a habit of startling those who meet him with outrageous paradoxical statements and who seems unaware of the oddness of his remarks. Wonderfully plotted, these mysteries also offers some brilliant insights into human nature - Love never needs time. But friendship always needs time. More and more and more time, up to long past midnight.
