

San Antonio Cemeteries Historic District (Images of America)

In his Spoon River Anthology, Edgar Lee Masters uses a series of poetic monologues to have his characters finally tell their true stories from their graves. The first section lets the reader know that all, all, are sleeping on the hill. San Antonio has its Powder House Hill about three miles from its central business district. Known as the Eastside Cemetery District, there are 31 cemeteries here, owned by different religious congregations, fraternal organizations, military groups, and the City of San Antonio. Like Masters Spoon River, within the Eastside Cemetery District reside people of many occupations and nationalities, including soldiers and statesmen, rich and poor, as well as husbands, wives, and children. Through photographs and research, the authors hope to tell some small part of the stories and the history of this unique burial ground.
