

Gaza in Crisis: Reflections on Israel's War Against the Palestinians

From the targeting of schools and hospitals, to the indiscriminate use of white phosphorus, Israel's conduct in Operation Cast Lead has rattled even some of its most strident supporters. In this book, Noam Chomsky and Ilan Pappé survey the fallout from that devastation, and place the massacre in Gaza in the context of Israel's long-standing war against the Palestinians. *Gaza in Crisis* is a rigorous, historically informed and much-needed analysis of the situation and will be welcomed by all those eager for Chomsky's insights into yet another political catastrophe.
