

## GCSE Child Development for AQA: Teacher Resource Pack

The Teacher Resource Pack has been developed to support teachers by providing comprehensive coverage of the 2010 specification, through specification summaries, activity worksheets and further resources and information. The learning materials in this pack cover the requirements of the GCSE Home Economics for AQA award. The pack covers all units of the specification, providing at a glance information about each unit as well as varied activities that can be used to promote, consolidate and reinforce learning. The photocopiable worksheet material can be used with classroom activities or as a basis for independent study. The varied activity material is vocationally focussed and differentiated into Stepping Stone (easier level) and Challenge (harder) activities. These include: \* word searches \* crosswords \* case studies \* group work activities \* investigations \* role play and discussion activities
