

## Frest Start: Finding Your American Dream Abroad

Lets face it, life in America is expensive and getting more so, doing business is hard, and the non-stop culture can make us crazy. If youre hoping to retire and live the same kind of life you lived while you were working, you may have realized you just cant afford it. Have kids? Wanting to start a business? Both of those are harder and more costly than ever these days. Is the American Dream dead? No! The American Dream is an IDEA, not a place... And you can find it abroad! There are many countries around the world -- some quicker to travel to than going from coast-to-coast -- where you can retire and live well on \$1500 a month. Where you can start and run a business with only minimum hassle. Where they will welcome you with open arms, and allow you to live a simpler, easier, less expensive lifestyle. Where your children can once again run free in the neighborhood, learn a second language, and explore the world. Many of these countries have special programs for retirees and people with pensions. Many of these countries have great and much less expensive health care. All of them have a simpler, slower, friendlier lifestyle. And they want you to come! This practical guide from international best selling author and world traveler Jennings Wright walks you through the whole process of moving abroad, from researching your own elsewhere to making the move and getting set up in your new country. It also has an invaluable guide to residency requirements and visa types for the countries most expats move to. Jennings takes the fear out of the process, breaking it down into manageable parts that arent overwhelming to help you find the new home of your dreams. Dont be afraid to take on big challenges. They give the best rewards. Spencer Christiansen
