

Dublin: A Grand Tour

In the same expansive format as the highly successful Great Irish Houses and Castles, this book traces the development of Dublin's architectural and decorative styles up to the beginning of the 20th century. The city is renowned for its atmospheric Georgian terraces but until now very little has been seen of the beautiful interiors behind these orderly facades. Many of the great public buildings too, like the Custom House, have recently been cleaned or restored and are captured here in all their sparkling glory. With a text containing the latest research as well as entertaining anecdotes, this is a grand tour.
