

Gravel Volume 3: The Last King of England

Its never a dull day, being the last king of Britains magicians, and before this bloody day is through, Combat Magician William Gravel will be rocked to the foundations of his beliefs. After his systematic elimination of the members of both the Minor Seven and the Major Seven, Gravel now stands supreme. Hes reformed the Minor Seven, filling their ranks with young, working-class occult detectives, but their powers and Gravels own leadership skills are about to be put to the test when a twisted, demented magician who didnt make the cut decides to show Gravel the error of passing him up. Meanwhile, the British government breathes heavily down Gravels neck as the civilian body count rises. But is Downing Streets concern solely for public safety related to Bible Jacks terrorist attacks on London, or is it something more politically-motivated?
