

Hell Night

BLOOD BROTHERSThe deadliest, most organized threat ever to homeland security is situated in Americas own backyard. A violent, militant arm of a neo-Nazi group has forged an unholy alliance with Palestinian terrorists to bring about a mutual goal. They want to generate panic, chaos and bloodshed on Americas streets. With limited intelligence available and even less time, Mack Bolan works down a hit list of strikes planned by both groups at home and abroad. The attacks are intended to destabilize Americas military, legal and government institutions, and light the fuse for the final act of terror against the heart of U.S. political power. The Executioners urgent directive comes straight from the President: do anything to stop this and do it now.
