

Hofwyl-Broadfield Plantation (Images of America: Georgia)

With welcoming views of the broad and expansive marsh, oak trees draped with moss, and a huge sky overhead, Hofwyl-Broadfield Plantation was home to five generations of one family. Located where the Altamaha River empties into the Atlantic Ocean near Brunswick, Hofwyl-Broadfield was the last of the coastal plantations to grow rice. Its story involves a love of the land--fertile yet sometimes unyielding, binding to it the people who owned it and those who worked it. It was this legacy that Ophelia Dent bequeathed to the State of Georgia at her death in 1973. Her hope was that future generations would enjoy the beauty of this special place and understand how each family found a way to bestow it upon the next. The Hofwyl-Broadfield Plantation State Historic Site, operated by the Georgia Department of Natural Resources, Parks, and Historic Sites Division, captures and tells the story of a special era.
