

Logos

Literary Nonfiction. Art. Graphic Design. Adam Rozum is one of the finest graphic designers in the nation, and this book is an important contribution to the field of logo design. Rozum's ability to interweave the essentials of design theory with practical advice about how to work with clients to achieve optimal results will benefit teachers and students of graphic design, fledgling designers, and organizations in need of an effective graphic identity to successfully communicate their mission to the public. Steve Masiel, Director of the graduate program in New Media Development at Syracuse University's Newhouse School of Public Communications, calls the book a real achievement that combines serious advice with a sense of joy in the act of creation that results in visual magic.
