

The Massive #14

Closed off by rising seas and permanent power loss, New York City has been reduced to a graveyard of empty buildings. The devastation hits Ryan the only American member of the crew, and the homecoming she dreamed of for the last year is fraught with terror and betrayal. Will Ninth Wave's mission finally meet its end? Brian Wood's *The Massive* proves that there's room for political comics. -Complex
The Massive is clearly one of the best books of 2012. -Comic Book Resources
