

Transcarpathia (Ruthenia, Ukraine) 1:250,000 Touring Map DIMAP

Transcarpathia or the Zakarpatska Oblast - the south-western corner of the Ukraine on a detailed contoured road map at 1:250,000 from Dimap, with street plans of Uzhhorod, Beregovo and Mukachevo. The map has contours at 100m intervals to show the regions mountainous terrain. Road network includes unpaved local roads and country tracks, with driving distance shown on main routes and locations of border crossings. Railway lines are shown with stations and indicate narrow gauge lines. Symbols highlight various places of interest including wooden churches, distinguishing, in keeping with the regions varied history, between six different religions. Names of towns and villages are given in Cyrillic alphabet, accompanied by their historic Hungarian versions. Names of peaks are also given in bilingual versions; mountain ranges are identified in Hungarian only. The map has no geographical coordinates. The map also provides street plans of Uzhhorod (Uzhgorod), Beregovo (Berehove/Beregove), and Mukachevo (Mukacheve) and Khust, annotated with tourist accommodation and places of interest. Both the main map and the plans are indexed and accompanied by tables comparing current Ukrainian and the old Hungarian names and providing other historical information. Map legend includes English. All other information is in Ukrainian and Hungarian only.
