

Judge Anderson: Triad (2000AD Presents)

In Mega-City One, some cases - and some criminals - are too bizarre for even the feared Judges (including Dredd!) to crack. That's when they call for Psi Division, the elite psychic department of the Judiciary - and Psi's top judge, Cassandra Anderson! In Triad, mysterious events start to kill Mega-City One's citizens. But what is their connection to an abused child? And who is the mysterious Psi-Division imposter who has sparked these events off? And in bonus stories Beyond the Void, Contact, The Prophet and The Screaming Skull, Anderson revisits Judge Death, meets an alien race, takes on a man-machine, and faces down a terrifying apparition!
