

Light at the Edge of the World: A Journey Through the Realm of Vanishing Cultures

For more than 30 years, renowned anthropologist Wade Davis has traveled the globe, studying the mysteries of sacred plants and celebrating the worlds traditional cultures. His passion as an ethnobotanist has brought him to the very center of indigenous life in places as remote and diverse as the Canadian Arctic, the deserts of North Africa, the rain forests of Borneo, the mountains of Tibet, and the surreal cultural landscape of Haiti. In *Light at the Edge of the World*, Davis explores the idea that these distinct cultures represent unique visions of life itself and have much to teach the rest of the world about different ways of living and thinking. As he investigates the dark undercurrents tearing people from their past and propelling them into an uncertain future, Davis reiterates that the threats faced by indigenous cultures endanger and diminish all cultures.
