Maps Show You Where... We Show You Why!

MORAVIA, THE GEM OF THE CZECH REPUBLIC The Czech Republic is one of the most beautiful of European countries: part of this beauty is derived from the prolific religious art and architecture in the little-visited region of Moravia. The Moravian region in eastern Czech Republic has been described as a unique open-air museum of religious heritage, where generations of monarchs - as well as commoners - built magnificent monuments devoted to their faith. Moravia is surely the most religious part of the country: it is filled with pilgrimage shrines, towering churches, and stately palaces. Many of the locations well visit are part of the venerated UNESCO World Heritage list. Lets get off the beaten track in the Czech Republic and see what Moravia has to offer! AUTHOR - Brad Olsen is a Contributing Editor for World Explorer magazine and has written several guide books. His seventh, Sacred Places Europe: 108 Destinations, was released in March, 2007. The second edition of Sacred Places North America: 108 Destinations was released in 2008 and won the Best Travel Guide for Planet Earth Award in 2010. Brads commentaries have appeared on National Public Radio, CNN and the Travel Channel. He enjoys extended global travel (particularly to exotic locations), and public speaking on the subject of sacred places.
