

# NATURAL HOMEMADE PEST REPELLENTS: Quick and Easy Solutions That Are Safe, Organic and Non-Toxic (THRIVING GREEN)

NATURAL HOMEMADE PEST REPELLENTS: QUICK AND EASY SOLUTIONS THAT ARE SAFE, ORGANIC AND NON-TOXIC (Updated February 1, 2016) Would you like roaches out of your kitchen and your life...FOREVER? Do mosquitoes ruin the peaceful enjoyment of your outdoor spaces? Do they torpedo your outdoor parties? More importantly, how can you protect yourself and your loved ones from the West Nile, Zika, Dengue and Chikungunya viruses carried by mosquitoes? How about those annoying ants, flies, spiders and pantry moths? Want to find out the best methods to keep pests out of your home and garden? Natural pest control is a lot less expensive than buying and applying dangerous pesticides that harm ourselves, our pets and the environment. Every year in the United States, over 1 billion pounds of pesticides are used on American family homes, lawns and gardens even more than farmers use! Worldwide, 5.6 billion pounds of pesticides are used every year! The run-off from this over use of pesticides is hurting us and contaminating our food supply, our water and our rivers, lakes and streams. In fact most of the toxic poisonings from commercial pesticides is coming from single-family homes! We can make it safer for our families, our homes, our gardens, wildlife and the environment by giving it some thought and choosing a different way that is healthier and more natural. Fortunately today, with a more enlightened way of thinking, about living on the Earth and how we share the planet with other living creatures (who all have their place in the Whole) we have many wonderful homemade solutions from herbal lore and also simple, inexpensive, grocery and home store products we can use to repel the insects and animals who we'd like to keep out of our homes and gardens. Luckily, there are many and

varied alternatives to the harsh, commercial chemical products on the market sold with the purpose of getting rid of pests and they are generally much cheaper too! With some careful consideration of the more non-toxic ways of dealing with unwanted critters in your home and garden, now you can arm yourself with effective DIY solutions that are much safer. You'll not only save a lot of money but will feel good about keeping your family and pets safe while ridding yourself of the unwanted pests that bug you. Don't let the pesky, little invaders spoil the enjoyment of your home and outdoors spaces. Get your copy NOW!
