

Medium Rare (The Hybrid Series) (Volume 5)

Everything stopped for call-outs. They became a priority, whatever the team of hybrids were doing and this day was no different from any other. From thinking that theyd be finishing interviews for their last big case, their day took on a more sinister feel, called out to a job that posed more questions than answers for everyone.

The call had come from a vice officer whod stopped the raid they were on, after theyd used the enforcer to open up a house. The smell had nearly knocked them off their feet. His team members knew what that meant and had wanted to leave, obvious it wasnt a brothel that had been reported by neighbours, and all of them were furious with him for standing his ground and calling it in. He was adamant that they waited for the murder squad to arrive. Once they had, it became apparent why theyd wanted to leave. Only one of them was left with a job when Harvey had had his say, and he joined the hybrids in the hunt for the bodies. This book contains descriptions of scenes of an explicit sexual nature which are suitable for adults only. The contents are not suitable for readers under the age of eighteen years of age. Travelling the world and hunting out antiques has given Andrew Harding a broad insight into the unraveling of the human mind. His fascination with the paranormal, supernatural and also crime has inspired him to cross boundaries and write this series of books. The people who have crossed his path have covered such a broad spectrum that hes realised that anything is possible, and that there are no barriers to the depravity that could be hidden beneath the surface.
