

Control Viewers! Make Your Color Photography POP! (On Target Photo Training Book 10)

Control Viewers! Make Your Color Photography POP! Revised and expanded edition! We all want to include emotion in our photographs - its what separates the snapshotter from the artist! Color is one of - if not THE most important tool we can use to insert emotion. But few of us really know how. Once youve read through this lesson (its fast and easy) you will never think of color the same again! For example... we all know that red is a good accent to attract attention. It can also indicate heat, passion or even stop! But there is more, a lot more. Learn how Baboon Butts affect the way we look at the color red! Depending on the shade of red used it could elicit emotions like: Light red - represents joy, sexuality, passion, sensitivity, and love. Pink - signifies romance, love, and friendship. It denotes feminine qualities and passiveness. Dark red - is associated with vigor, willpower, rage, anger, leadership, courage, longing, malice, and wrath. Reddish-brown is associated with harvest and fall. Here is a copy of the table of contents to show a little of what is covered in this On target Photo Training lesson volume...
