

Organic Gardening Essentials 4 (The Organic Gardening Academy.)

Volume four is the last in the series, and there is a huge amount of brilliant information in here. I guess you could call it the how to section. Following on from the first three volumes has been a joy to produce because after all the must do and must have details regarding organic gardening it is great to get to the growing sections. Below is the list of contents from which you can see that everything is now come full circle. Special Tips for Growing Tomatoes Special Tips for Growing Potatoes Special Tips for Growing Delicious Sweet Corn Special Tips for Growing Zucchini, Squash and Pumpkins The Secrets of Growing Delicious Strawberries Special Tips for Growing Raspberries and Blueberries Special Tips for Growing Fruit Trees How to Grow and Prune Decorative Shrubs How to Grow Beautiful Roses Special Tips for Those Who Garden in Cold Climates The Secrets of Growing a Lush Garden in your Back Yard Desert. How to Save and Store Seeds from Year to Year How to Save Bulbs from Year to Year How to Create Starts From Your Existing Plants Harvesting Tips for the Vegetable Gardener Money Saving Tips for the Frugal Organic Gardener How to Turn an Average Garden into a Breathtaking Organic Paradise And here we conclude the Series So there you have it. There is not much more if anything you need to know before you start to build and maintain your Organic Garden, so go to it and enjoy.
