

# C LEARNING AND BUILDING BUSINESS AND SYSTEM APPLICATIONS, 2nd Ed.

This book offers an in-depth introduction to C programming language from the basics to the advanced concepts. It is application oriented, too. The text is interspersed with numerous worked-out examples to help readers grasp the application of concepts discussed. The second edition includes an additional chapter on Inter Process Communication. The book is suitable for several categories of readers from beginners to programmers or developers. It is also suitable for students in engineering and science streams and students pursuing courses in computer applications. THE AUTHOR Susant K. Rout, Founder, LIT Susant K. Rout Centre of Excellence, Bhubaneswar, has been a faculty and trainer since 1997. So far, he has trained more than 60,000 Engineering, MCA, and BTech students. Mr. Rout has written numerous books on C and C++. Through his dedication and passion for C, he has won the respect of many clients. Many of his students have risen to well placed positions in top-notch companies.
