

Philips Street Atlas Co. Antrim and Co. Londonderry

The 2nd impression of the only detailed colour atlas that gives comprehensive coverage of Co. Antrim and Co. Londonderry. No other atlas shows every street in the two counties. This atlas is part of a series of four atlases providing unique, comprehensive coverage of the whole of Northern Ireland. The mapping is derived from Ordnance Survey of Northern Ireland data and gives the user complete coverage of all urban and rural areas. The mapping is at a scale of 1 1/3 inches to 1 mile with larger scale mapping of 2 2/3 inches to 1 mile for the Greater Belfast areas and for the towns of Antrim, Ballyclare, Ballymena, Ballymoney, Carrickfergus, Coleraine, Cookstown, Larne, Limavady, Londonderry, Magherafelt, Newtownabbey, Portrush and Portstewart. The mapping also includes the townland names in rural areas with postcode boundaries shown throughout. The atlas is ideally suited for both business and leisure use. There is a route-planning map at the front of the atlas. The main maps show every named road, street and lane clearly with through-routes highlighted. School locations are marked and emergency services, hospitals, police stations, car parks and rail and bus station locations are all featured. There are separate comprehensive indexes of street names - with highlighted schools, industrial estates, hospitals, and sports centres - towns and villages and townlands.
