

Murfreesboro (TN) (Postcard History Series)

Murfreesboro was recognized as an official city in 1817, and from 1818 to 1826, it was the capital of Tennessee. In its early years, the town established itself as a rich agricultural community. By 1853, the area was home to three colleges and several academies. Murfreesboro played a decisive role in the Civil War and suffered the loss of many of its people and much of its architecture. However, in the early 20th century, Murfreesboro regained its momentum and began to rebuild. Many of the buildings from this era still exist today and stand as great reminders of the town's past.
