Crochet Doilies (FREE Bonus Included) 5 Pretty Crochet Patterns There are times when it is the little details in a room that bring it to life. The little things that draw your attention to the finer things, and the things that make you marvel at their beauty. Sometimes, we dont realize that it is the small details that surround the bigger details that we find beautiful. Have you ever seen a vase sitting on a table, and noted how beautiful the flower was inside? Did you realize that there wasnt much to the vase, or the flower, but that there was just something about the entire image that made it beautiful? If you have, then you were probably looking at the doily, and not realizing how much beauty just the little accent added to the image. Sure, they are old fashioned, and they have been seen in a variety of settings, but they are a classic, and a classic is something that has been tried and true. What could be better than a classic that has been reinvented? One that you can create to match the lifestyle you have, and the modern decor that is in your own home? Now, you can.
