

## Standard Catalog of United States Paper (Standard Catalog of United States Paper Money, 14th ed. ed By Robert F. Lemke)

Over 6,000 listings and 15,000 valuations make this the most comprehensive reference catalogue devoted exclusively to U.S. currency issues. Collectors get the latest pricing information for all known U.S. paper money printed since 1813. Many items covered in this respected guide are not listed in any other book. Coverage is given to large and small-size notes, national bank notes, fractional currency, and encased postage. It also features coverage of error notes, military payment certificates, and an extensive guide to authentication of U.S. currency. The catalogue listings are arranged in logical denomination - date of issue style long observed by American cataloguers. Each major section provides essential historical and economic background information allowing collectors and students to understand each issue.
