A visually compelling and informative celebration of options, *Light Your Home* begins with Practical Lighting, covering everything from assessing your needs in different rooms in the home to the basic principles of designing a lighting scheme. Designing with *Light* demonstrates how to combine light sources to enhance the quality and practicality of a home's interior. Decorating with *Light* highlights the most up-to-date lighting techniques and products. The Compendium presents an exciting array of lighting options across a wide range of styles and budgets.
