

AutoCAD for Interior Design and Space Planning Using AutoCAD 2002

Written specifically for practitioners of interior design, this book helps readers learn AutoCAD by actually using it in planning and designing a wide variety of realistic interiors. It covers both 2- and 3-dimensional aspects of AutoCAD 2002. Using a non-technical writing style and hands-on PROMPT/RESPONSE tutorial approach, it takes readers step-by-step through the creation of all of the drawings necessary for a space planning project (Tenant Space project) from floor plans, elevations, and furniture planning, through power and lighting plans, to isometric and three-dimensional drawings. An Overview of the AutoCAD Program; Preparing to Draw with AutoCAD; Drawing with AutoCAD: Basic Commands and Settings; Drawing with AutoCAD: Conference and Lecture Rooms; Adding Text to the Drawing; Printing and Plotting; Drawing the Floor Plan: Walls, Doors, and Windows; Dimensioning and Area Calculations; Drawing Elevations, Wall Sections, and Details; Drawing and Adding Specifications to Furnishings and the AutoCAD Design Center; Drawing the Reflected Ceiling Plan and Power Plan; Isometric Drawing; Creating Presentations and Creating a Web Page Using AutoCAD; Using Raster Images and Grips; Customizing Toolbars and Menus; Basic Three-Dimensional Models; Solid Modeling. For interior designers.
