

Return of the Stupid Sock Creatures: Evolutions, Mutations, and Other Creations

They're back! John Murphy is famous for his weird and wacky sock creatures. In this follow-up to Stupid Sock Creatures, John shares the spotlight with guest designers in 20 projects that push the boundaries of stupid with crazy-cute quadrupeds, two-headed beasts, pop-eyed monsters, and more. The wide range of difficulty--from a simple one-sock monster to a four-sock extravaganza--means this book will attract all levels and types of crafter. And thanks to John's clear and humorous instructions, absolutely nothing is intimidating. Well, except for Piethagorus. But don't worry, he only eats pie (we think)!
