

Richard Nickels Chicago: Photographs of a Lost City

Richard Nickel is an urban legend of sorts. He is remembered for his brave and lonely stand to protect Chicagos great architecture, and for his dramatic death in the rubble of the Stock Exchange Building. He is remembered, too, for the photographs he left behind. This is a book about one mans relationship with his city, a remarkably personal story told through compelling photographs. Richard Nickels Chicago is for people who love the city, and for people all over the world who value city life.
