

Daytrips Companion Guide to the Loire Valley

Sean Jennett's Loire is 150 miles of France's longest river made notable, he says, by the presence of a series of splendid royal and noble chateaux along its course. So he conducts us from Gien, because that was a royal chateau, to Angers, because here was another. En route we pass through the three ancient provinces of Orleans, Touraine and Anjou, the last being one of the cradles of the English monarchy, whence came the Plantagenet dynasty. How many chateaux are there in the area? Perhaps 400, to say nothing of churches, cathedrals, monasteries, gardens, cave-dwellings and so much more that is of interest to be visited and enjoyed. Sean Jennett, certainly one of the most distinguished travel authors writing today, is the perfect guide. His text is enhanced by a selection of his own beautiful and sensitive photographs. First published in 1975, this timeless classic guide to the real Loire has been once again made available as an exact reproduction of the original volume, now a collector's treasure. It is part of the Daytrips Companion series, complementing the popular Daytrips guidebooks published by Hastings House.
